Subject index

A

Acid phosphatase; histochemistry of enzymes associated with tissue degradation incident to orthodontic tooth movement (Lilja, Lindskog, and Hammarström), 63
resistance of enamel exposed to fluoride-containing orthodontic cements (Sadowsky, Retief, and Bradley), 33
Activator, Herren type; propulsion of lower jaw through forward-biting appliance, fixed in upper jaw, with variable amounts of bite-opening of construction bite, 173 (Abst.)
Adhesives; in vitro cytotoxicity of orthodontic bonding materials (Terhune, Sydiskis, and Davidson), 501
Allergic children, mouth breathing in: relationship to dentofacial development (Bresolin et al.), 334
Allometric centered model of craniofacial growth, statistical testing of (Moss et al.), 5
Alterman, David, receives Gerard A. Devlin Memorial Award, 266
American Association of Orthodontists, eighty-third annual session, 86
preliminary program, 153
eighty-three annual meetings, 251 (Editorial)
meeting calendar, 79, 170, 269, 361, 442
officers and organizations, directory, 88, 180, 270, 362, 452, 528
American Board of Orthodontics, 513
case report (Hayes), 282
certification, 76 (Editorial), 171 (Erratum)
conducts Phase III examinations, 513
examinations, 86, 269, 451
American College of Dentists Award of Merit presented to James E. Brophy, 359
American Dental Association's guidelines for examination, diagnosis, and management of temporomandibular disorders, impact of, on orthodontic practice, 518 (Guest editorial)
AMERICAN JOURNAL OF ORTHODONTICS, editorial board, 450 (Erratum)
Analysis of errors in orthodontic measurements (Houston), 382
three-dimensional, of dental casts, operational performance of Reflex Metrograph and applicability to (Takada, Lowe, and DeCou), 195
Anatomy, radiologic, of jaws, 172 (B. rev.)
Anchorage, orthodontic, studies on efficacy of implants as (Gray et al.), 311
Andresen therapy of Class II, Division 1 malocclusion, assessment of, 356, 524 (Absts.)
Angle, interincisal; incisor position in Scandinavian children with ideal occlusion (Platou and Zachrisson), 341
JYD, 357 (Abst.)
mandibular plane, mandibular rest position in subjects with high and low (Peterson, Rugh, and McIver), 318
Angular variability of facial surfaces of human dentition: evaluation of morphological assumptions implicit in various "straight-wire" techniques, 83 (Abst.)
Ankylosis of temporomandibular joint, surgical management of, 82 (Abst.)
Appliance, forward-biting, fixed in upper jaw, with variable amounts of bite-opening of construction bite, propulsion of lower jaw through, 173 (Abst.)
Fränkel, does it produce forward movement of mandibular premolars? 172 (Abst.)
morphologic changes in transverse dimension using (Owen), 200
therapy: orthopedic or orthodontic (Creekmore and Radney), 89
functional; primate experiments in malocclusion and bone induction (Woodside et al.), 460

Appliance—Cont'd
orthodontic, removable, influence of, on patient sleep, 85 (Abst.)
smile—how to cope with braces, 262 (B. rev.)
removable, proximal caries increment in connection with orthodontic treatment with, 448 (Abst.)
Arch alignment; orthodontic management of mandibular canine-incisor transposition (Shapira and Kuftinec), 271
dimension, examination of dental crowding and its relationship to tooth size and (Howe, McNamara, and O'Connor), 363
width and arch height, prediction of, from sum of incisors, 262 (Abst.)
wires of two different sizes, clinical evaluation of tooth movement along (Huffman and Way), 453
Orthodontic, use of nomograms to determine elastic property ratios of (Kusy), 374
selected low-modulus, three-dimensional force and moment characteristics of, 84 (Abst.)
Argentina Orthodontic Society and Ibero-American Association of Orthodontists, 451
Australian Orthodontic Congress, tenth, 451

B

Bioglass; studies on efficacy of implants as orthodontic anchorage (Gray et al.), 311
Bionator treatment, effects of second molar extraction in conjunction with, 84 (Abst.)
Biorthogonal analysis; geometry of craniofacial growth invariants (Bookstein), 221
Bond strength of orthodontic direct-bonding cement—plastic bracket systems in vitro (Pulido and Powers), 124
of thermally recycled metal brackets (Wheeler and Ackerman), 181
Bonded lingual retainers (Orsborn), 218
Bonding bases coated with porous metal powder: comparison with foil mesh (Hanson et al.), 1
materials, orthodontic, in vitro cytotoxicity of (Terhune, Sydiskis, and Davidson), 501
orthodontic; improvements in bracket base design (Smith and Maijer), 277
Bone growth, factors and mechanisms influencing, 447 (B. rev.)
remodeling; orchestration of tooth movement (Mostafa, Weaks-Dybvig, and Osdoby), 245
induction, primate experiments in malocclusion and (Woodside et al.), 460
Bracket base design, improvements in (Smith and Maijer), 277
plastic, systems—direct-bonding cement, orthodontic, bond strength of, in vitro (Pulido and Powers), 124
thermally recycled metal, bond strength of (Wheeler and Ackerman), 181
British Association of Orthodontists, 269, 451
British National Formulary; dental practitioners' formulary, 1982-1984, 356 (B. rev.)
Brophy, James E., presentation of Award of Merit to, 359
Buccinator mechanism; morphologic changes in transverse dimension using Fränkel appliance (Owen), 200

C

Calcium hydroxide therapy; endodontic-orthodontic technique for esthetic stabilization of externally resorbed teeth (Gholston and Mattison), 435
Canadian Association of Orthodontists, 527
Canine-incisor transposition, mandibular, orthodontic management of (Shapira and Kuftinec), 271
Caries and gingivitis, prevention of, 262 (Abst.)
proximal, increment in connection with orthodontic treatment with removable appliances, 448 (Abst.)

January, pp. 1-88; February, pp. 89-180; March, pp. 181-270; April, pp. 271-362; May, pp. 363-452; June, pp. 453-540.

Cartesian transformations; geometry of craniofacial growth invariants (Bookstein), 221
Cartilages, secondary, in facial skeleton of rat, 358 (Abst.)
Caucasians and Japanese, cephalometric comparison of clinical norms between, 174 (Abst.)
Cement, direct-bonding—plastic bracket systems, orthodontic, bond strength of, in vitro (Pulido and Powers), 124
orthodontic, fluoride-containing, acid resistance of enamel exposed to (Sadowsky, Retief, and Bradley), 33
Center of gravity; adaptation of head posture in response to relocating center of mass (Vig, Rink, and Showfety), 138
of rotation, holographic determination of, resulting from known lingual loads, 263 (Abst.)
Cephalograms, natural-head-position, simple method for taking (Showfety, Vig, and Matteson), 495
Cephalometers, 78 (Letter to editor)
Cephalometric measurement; analysis of errors in orthodontic measurements (Houston), 382
Chavoor, Ashur, receives Gerard A. Devlin Memorial Award, 266
Chewing gums, xylitol- and sorbitol-sweetened, comparison of effects of, on dental plaque, 175 (Abst.)
system, oral stereognosis and neuromuscular dynamics of, 82 (Abst.)
Chromaffin cells, growth-stimulating influence of vegetative nerve system and, 448 (Abst.)
Collagen and prostaglandin synthesis in vitro during orthodontic tooth movement, 83 (Abst.)
Cranial base, sagittal jaw relationship, and occlusion, 357 (Abst.)
suture, in vitro cellular response of, to tensile force, 264 (Abst.)
Craniofacial growth invariants, geometry of (Bookstein), 221
simple method for taking natural-head-position cephalograms (Showfety, Vig, and Matteson), 495
statistical testing of allometric centered model of (Moss et al.), 5
morphology; mandibular rest position in subjects with high and low mandibular plane angles (Peterson, Rugh, and McIver), 318
Crowding, dental, and its relationship to tooth size and arch dimension (Howe, McNamara, and O'Connor), 363
late lower anterior, 84 (Abst.)
lower anterior; third molars (Bishara and Andreasen), 131
Culbreth, Fay H., receives Southern Society's Distinguished Service Award, 267
Cyclophosphamide-induced temporomandibular synostosis (Bacon), 507
Cytotoxicity, in vitro, of orthodontic bonding materials (Terhune, Sydiskis, and Davidson), 501

D

Dental casts, three-dimensional analysis of, operational performance of Reflex Metrograph and applicability to (Takada, Lowe, and DeCou), 195
crowding and its relationship to tooth size and arch dimension (Howe, McNamara, and O'Connor), 363
-facial attractiveness scale (Tedesco et al.), 38, 44
maturation of untreated normal occlusions (Sinclair and Little), 114
plaque, comparison of effects of xylitol- and sorbitol-sweetened chewing gums on, 175 (Abst.)
practitioners' formulary, 1982-1984, 356 (B. rev.)
Dentistry in Japan—1980-1981, 172 (B. rev.)
trends in, 170 (Editorial)
Dentition, anterior, alignment of; third molars (Bishara and Andreasen), 131
